HOW TO REACH OUR FARM,

ATTENTION TO VISITORS, ETC.

Strangers desiring to inspect our stock should come direct to our office, centrally located (No. 256 West Main street, between Second and Third streets), and easily reached by all lines of street cars from every depot. We will take pleasure in conveying visitors to the farm, located on the Preston street pike, five miles from business center. Gentlemen wishing to remain and examine our horses will be cordially entertained at the farm residence.

LOUISVILLE, THE GATEWAY INTO KENTUCKY.

Louisville is a direct point from the East and North, via Indianapolis, and through tickets can be secured. From the North-west, South-west and South, this city is directly accessible. Come direct to Louisville, from which point you can, if desired, reach the interior counties by two or three hours' run.

OUR NEW FARM, FACILITIES FOR KEEPING STOCK, DEVELOPING SPEED, ETC.

The large and constant growth of our business having compelled us to increase our capacity, we have secured one of the best stock farms in the State, located within thirty-five minutes drive of our office. The farm embraces 375 acres, 360 of which are as well set in bluegrass as any lands in Kentucky. With abundance of pure water, conveniently distributed, ample shade, and secure fences, together with 204 box stalls, we are in a position to care for stock in the best manner. Our training department is in the hands of Doctor A. N. Smeall, a reliable and skillful man (see further information on page 3).

There are many owners who do not conduct a farm themselves, who would find it to their interest to keep their stock with us throughout the year.

We have a grand trio of stallions for service (Princeton, 2:19¾, Kentucky Wilkes, 2:21¼, and Pilot Mambrino, 2:35), to which owners can breed their mares if they desire (see last pages of this catalogue), and if they wish to dispose of stock, we have the best facilities for effecting sales to advantage. The "Louisville" Stock Farm offers a safe home for horses, where they will receive intelligent and vigilant care, liberal feeding and competent veterinary attention, if required.

OUR OFFERING OF TROTTING STOCK.

Herein catalogued will be found about 165 head of stock, which we offer for sale, believing that so large and excellent a lot, in breeding and individual merit, has seldom, if ever, been congregated on one farm for the purpose of sale. Certainly so great a variety of representatives of various high class families can not be found elsewhere. We can suit almost any one if they will favor us with a call. Nearly all the stock offered is at our place. The prices printed in our catalogue are subject to change without notice, although it is not expected that changes will be made without cause.

OWNERS OF STOCK FOR SALE

Should write us describing what they have to offer. We will forward particulars as to cost of keep, commission and our methods of doing business.

Parties having large lots of stock that they may wish to dispose of by public sale can secure our services to get up catalogues, attend to the advertising and general management of same at reasonable rates.

ANNOUNCEMENT.

About one year ago we established the Kentucky Live Stock Agency, believing that the large proportions which the trotting stock interest had reached, demanded a straightforward means of communication between buyer and seller. The success with which the enterprise has met is most emphatic, showing that such an agency fills a decided want. It affords breeders and owners an outlet, or means of disposal, of their trotting stock, and furnishes buyers with an opportunity to inspect a large collection of stallions, brood mares and fillies, *representatives of a greater variety of families than they could find in many days or weeks of travel, involving much expense.*

Mr. S. J. Look was for years connected with "Glenview," extending up to the time of the disposal of the stock of this celebrated farm. He has also purchased and sold Trotting Stock, extensively, for prominent breeders for many years, and possesses a close and practical knowledge of the business, with a wide and valuable acquaintance.

Mr. B. T. Smith, during the year 1887, had charge of the sales department of Indian Hill Farm, near this city, during which time he disposed of sixty-five head for Mr. Veech, and sixteen for outside owners. His former position as Secretary of the Kentucky Trotting Horse Breeders' Association, at Lexington, has given him a very extensive acquaintance with horsemen throughout the country. In addition to these advantages, it may be mentioned that he has had many years' experience as owner, breeder and student of Trotting Stock.

Our opportunities have given us a thorough knowledge of the various families of Trotting Stock, their valuable features and drawbacks. We have no pet families to advocate, and, having a great variety of strains and combinations of blood, are no more interested in selling one than another.

It is our wish and policy to make a friend of every inquirer who visits our office and farm, by aiding him, through candid, reliable information, to secure just what he wants in the way of stock. In all cases any known defect in an animal will be pointed out, and customers protected in every way possible. We are determined to conduct our Agency in a manner that will make it known throughout the country as one in which buyers can have thorough confidence.

We are the agents for the owners of the stock described in catalogue, and there may be statements relative to such stock that it would be impossible for us to know, of our own knowledge, and hence can not be responsible for, but we use the most rigid care in receiving descriptions or information from owners, to avoid exaggerated statements. Nor will we solicit stock from parties that are known to be unreliable.

While we are the agents for the owners of stock placed in our hands to sell, yet we feel that it is our duty, as a matter of principle, to protect the buyer in every possible way against any failure to state defects and against misstatements of facts, if within our knowledge. We fully realize, also, that the permanent success of our business necessitates a strict adherence to this policy.

In all cases where owners are within reach we will take pleasure in introducing customers to them, with the view to obtain any detailed information desired. Buyers who desire to do so can obtain skillful and reliable veterinary advice as there are several competent veterinary surgeons in Louisville.

We adopt the plan of printing the price of each animal, feeling that it is the most satisfactory one to buyers, and knowing that the same are reasonable—in many cases very low. It is necessary to the success of our enterprise that stock placed in our hands should not have fictitious prices placed upon it. We are constantly refusing stock that is priced above its value, or for other reasons would not be acceptable to buyers. Representing a large number of owners, there are many whose circumstances require speedy sales at bargain rates.

On the next page we give references and letters of endorsement. The commendations therein contained we hope to merit, through our manner of doing business.

References and Endorsements.

The following letters were received about the time we established the Kentucky Live Stock Agency, some twelve months since:

R. S. Veech, Esq., proprietor of Indian Hill Stock Farm, writes:

Messrs. Look & Smith: LOUISVILLE, December 21, 1887.

GENTLEMEN: I approve of your new enterprise, and believe that with your long experience and thorough knowledge of trotting stock, together with your large acquaintance and high standing, you will make the Kentucky Live Stock Agency a decided success. Such an agency, conducted on high-toned principles, should be an advantage to both buyers and sellers. Respectfully,

Colonel Wm. Edwards, President of Cleveland, Ohio, Driving Park Company, writes Mr. Look under date of December 23d: "If my name as reference can do you any good use it, with great pleasure. When you consider the fact that you bought for me nearly, or quite, $30,000 worth of horses, all of which I paid for before seeing, and which upon careful personal inspection I heartily approved, you can easily understand that I shall shed no tears or stay awake nights in consequence of your using my name in your circular.

TRAINING DEPARTMENT.

Dr. A. N. Smeall, a thoroughly experienced trainer of trotters will have charge of our training department. Dr. Smeall is a careful and conservative handler who has developed many fast ones. Owners of young trotters may place the fullest confidence in his conservative and judicious methods. Being a graduate of the Ontario Veterinary College and an experienced practitioner, owners of horses placed in his charge will have the advantage of the most intelligent care and treatment of same. We append a few testimonials indicating Dr. Smeall's standing with horsemen.

To whom it may concern: ELYRIA, OHIO, November 26, 1888.

I take great pleasure in certifying to the merit and ability of Dr. A. N. Smeall, V. S., as a conditioner and trainer of fast horses, and especially as a handler of young stock. During three years in my employ he proved to be uniformly a gentleman, strictly sober and attentive to every duty, honorable and reliable in every sense, and therefore entirely worthy of confidence. In the season of 1886, alone, he drove for me the following named to their records: Orphan Boy, 2:22½, Little Ida, 2:19¾, Lucy V., 2:30, and Kenton Belle, 2:30. I most heartily recommend him to any who may be interested. Very respectfully,

(Signed) J. W. VOGLESONG.

To whom it may concern: CLEVELAND, OHIO, November 30, 1888.

This will certify that I have known Dr. A. N. Smeall for several years and I take pleasure in bearing testimony as to his good character and habits. He is a gentleman, capable in his profession, a first-class trainer and driver, and any one who may have business connections with him, will, I am sure, be perfectly satisfied with results. Respectfully,

WM. B. FASIG.

LEXINGTON, KY., December 16, 1888.

Certainly you can use my name. As a trainer and driver you are in the front rank.

Respectfully, (Signed) J. E. MADDEN.

The editor of the *Western Sportsman* says of Doctor A. N. Smeall: We have enjoyed his acquaintance for years and can safely vouch for his integrity and ability as a horseman and a veterinarian. As a trainer it might not be out of place to give a slight sketch of his career on the turf. Although a young man, as far back as 1869, he was in the employ of Captain Ennis, of the English cavalry regiment, then stationed at Toronto, Canada, and in 1875 we find him head trainer for Mr. George A. Gavin, of Three Rivers, and the boys will long remember his debut as a trainer, when he beat Vespucious with The Moor at Ottawa, Canada, and at this early date he enjoyed the reputation of being a good conditioner. He was in the employ of Mr. Gavin up to his retirement from the turf, training such Canadian runners as The Moor, Carleton, Frank Swift, Pauline, Ivanhoe, Ottawa Belle, Jack Carter and many others. His first appearance in this country was in 1872, when he was second trainer for C. J. Dempsey, under Mose Thomas. His name next appeared as a graduate of Ontario Veterinary College in the class of 1877 and 1878. He enjoyed a paying practice for several years. After attacks of blood poisoning, Doctor Smeall was advised to abandon his profession by his physician, which he did, and returning to his first love, his name soon became prominent with such trotting and pacing horses as Orphan Boy, 2:22½, Toledo Girl, 2:15, Little Ida, 2:19¾, Lucy V., 2:30, and Kenton Belle, 2:30, and others, and to him belongs the credit of bringing out Desdemona, 2:27.

Mr. B. T. Buford, as an appreciation of his ability, will sends his colts to Kentucky, where the doctor will give them their early education.

Our full mile regulation track, with stables adjoining same, furnishes the best facilities for handling horses to advantage. Rates as low as is consistent with first-class care.

WHAT THE EDITOR OF LIVE STOCK DEPARTMENT LOUISVILLE COURIER-JOURNAL SAYS OF THE LOUISVILLE STOCK FARM.

Something over a year ago Messrs. Look & Smith opened their Live-stock Agency, with Louisville for headquarters. What was then a venture is now an established success, and a real benefit, not only to Louisville and Jefferson county, but to the country at large; and so sellers from all parts send their choicest here for sale, these in turn attracting a corresponding order of buyers. So decided, indeed, has been the success of Messrs. Look & Smith that they found the farm occupied by them last year inadequate to accommodate the increased amount of stock consigned to them, necessitating a much larger acreage and more than double the former capacity for stabling. To meet this enlargement of business they have secured for a term of years one of the very best stock farms, locality, character of grass, improvements, etc., considered, to be found in the State. This property embraces the home place of the late Dr. Standiford, with 375 acres of choice land, situated four miles south of the business center of Louisville; and this property will hereafter be known as the Louisville Stock Farm. Dr. A. N. Smeall and Mr. W. H. Crumrine, his assistant, under the general direction of Mr. B. T. Smith, who resides on the farm, have charge of the large lot of horses, now numbering about one hundred and eighty head. Messrs. Look & Smith have been fortunate in securing the services of so experienced, skillful and careful a trainer as Dr. Smeall. He is also a graduate of the Ontario, Canada, Veterinary College, and is an experienced practitioner. His veterinary knowledge will be of great value in the position he occupies, insuring intelligent care, and, when necessary, prompt treatment. By constant sifting and enforcing a rigid standard, an exceptionally competent and respectful corps of leaders and grooms has been secured. The stallions making the season were, on a visit recently made by the writer to the Louisville Stock Farm, first inspected. They are Princeton, Kentucky Wilkes and Pilot Mambrino. Princeton, with his six-year-old record of 2:19¾, is not only an elegant individual, but is one of the most richly-bred stallions in the stud-book. He was sired by the great Princeps, out of Reina Victoria, a mare twice sold at auction for over $7,000, and dam of a yearling that sold for $5,700. His breeding needs little comment. At the Lexington fair he captured first premium in 1888 for the best stallion with four of his get. His oldest produce, and the only one as old as three years, showed a 2:24 gait last season. Another, a yearling, was broken after May 5th and trotted a full mile, first week in September, in 2:58. Kentucky Wilkes, as his name suggests, was bred in this State, from which he departed to make a successful career as a trotter, earning a record of 2:21¼ and a high reputation as a game race horse. This will be his initial season in Kentucky. The oldest of his get is Virginia Evans, foaled June 27, 1885. This filly secured a record of 2:31 last year, and Astoria, a two-year-old, made a mark of 2:40½. We saw a number of the get of this stallion and were much impressed with their high finish and superior conformation and action. Several have been sold from the place within the last month, one of which, a yearling, brought $2,500. Pilot Mambrino is a fast son of Pilot, Jr., and is out of the Mambrino Chief mare that produced Indianapolis, 2:21. The daughters of this horse will surely make great brood mares. The stallions on sale were next visited, and are a grandly-bred lot of about fifty head, ranging in age from two to eight years, by such sires as Dictator, Nutwood, Princeton, Kentucky Wilkes, Princeps, Phallas, Volunteer, Mambrino Dudley, Alcantara, Administrator, Oxmoor, William L., Young Jim, Rumor, Euclid, Gambetta, Wilton, Bismarck and a few others. These stallions are an extra-bred lot on their dam's side, many of them being out of "producers." Of brood mares and fillies there is a large and choice lot, a majority of them by the above-named sires. Many of the mares are in foal to Princeton, Kentucky Wilkes, Pilot Mambrino, Earl, etc. On a farm of this kind, where the stock is the property of a great variety of owners, there must be, for various reasons, bargains as well as pedigrees and individuals suited to all kinds and conditions of buyers. The training department offers excellent facilities to owners who wish to have their young stock developed. Under Dr. Smeall's tuition, and worked over a regulation mile track, the youngsters will have every chance to improve and earn a reputation. With abundance of water, well distributed, the best of blue-grass pastures, well-fenced, ample shade, over two hundred box stalls, and numerous grass paddocks, the Louisville Stock Farm offers to owners who wish their stock carefully kept every inducement and advantage. A visit to the farm and inspection of the condition of the stock will speak favorably for the management.

STALLIONS AND COLTS.

No. 1. EARL 2474. (Standard.)

(Record, 2:24¾.)

Bay stallion, foaled in 1880.

Sire of Earl's Lad (two years), 2:41, Helen H. (two years), 2:46, Earl's Laddie (two years), 2:51, and Idavan (three years), 2:40.

BY PRINCEPS 536.

Sire of Trinket, 2:14, Granby, 2:19½, Princeton, 2:19¾, Feme Sole, 2:20, and fifteen others in the 2:30 list. Princeps is by Woodford Mambrino, 2:21½; dam Primrose, by Abdallah 15.

1st dam Juno . . . . . by Hambletonian 10.

Dam of Greenlander, 2:24¼.

Sire of forty-one in the 2:30 list; sire also of the dams of Trinket, 2:14, Stamboul, 2:14¾, and forty-nine others in 2:30 or better.

2d dam Lady Morrison, record 2:35, two mile record 5:14.

Note.—Earl is a very handsome stallion, 15 hands 2½ inches high, with great finish, muscular development and bone. He has as good a head as we have ever seen; clean, bony, wide between the eyes, which are particularly prominent and spirited, fine muzzle and good ears. The expression of his countenance denotes fearlessness and spirit, tempered with mildness and good sense. His neck is well arched and beautifully set on to very deep, sloping shoulders. Back, coupling, hips and quarters smooth, strong and in every way admirable. Arms and thighs very muscular; legs, flat, broad, clean and cordy, with excellent feet. His mane and tail are full and handsome. Earl is grandly gaited, steady, handy and will fight out a race with the greatest resolution. Any time he may show in a trial he can be relied on to exceed in a race, if in condition. Earl has already shown himself a remarkable breeder. His colts all show speed and are natural, pure gaited trotters. Three two-year-olds got records last season, ranging from 2:41 to 2:51. Three other two-year-olds sold for $1,500 each, and others at prices nearly as high. Several yearlings by him have trotted quarters ranging from 39 to 47 seconds. We write advisedly and conservatively when we state that any one wishing a first-class stallion that has proved himself a getter of fast colts can come here and in the produce of Earl see as grand a lot of trotters as any stallion we have ever seen can show of their age and numbers. They are not only fast, but have good size, bone, substance, finish, and the square, rapid, frictionless action of their sire. Earl is a horse that will be very popular in any community and do a large stud business at a good fee. He is a very sure foal-getter. The owner's reason for selling is simply that he owns a full brother to Earl and does not wish two of the same blood. He authorizes us to state that if Earl is placed in training by June 15th, and does not beat 2:20 this year, he will bind himself to refund $4,000 of the price of the horse. Price, $10,000.

No. 2. ELECTROTYPE 9006. (Standard.)

Bay stallion, foaled in 1885.

BY ELECTIONEER 125.

Sire of Manzanita, 2:16, Anteeo, 2:16½, Sunol, 2:18, and thirty-five others in the 2:30 list. Electioneer is by Hambletonian 10; dam Green Mountain Maid (dam of Prospero, 2:20, Elaine, 2:20, Dame Trot, 2:22, Mansfield, 2:26, Storm, 2:26¾, and Antonio, 2:28¾), by Harry Clay 45.

1st dam Addie . . . . . by Hambletonian Chief.

Dam of Woodnut, 2:16½, trial 2:14½, Manon, 2:21, trial 2:15½, and Manette, trial 2:19¾.

Son of Hambletonian 10; dam by Superior.

2d dam . . . . . by Sayre's Harry Clay 45.

Sire of the dams of Prospero, 2:20, Elaine, 2:20, St. Julien, 2:11¼, and fifteen others in the 2:30 list.

Note.—Electrotype is a rich blood bay colt, 15¾ hands high, weighing about 1,100 pounds, and is exceedingly handsome, muscular and finely finished. Has a clean, bony head, broad between the eyes, good length of neck, short, strong back, very powerful hips and quarters, and broad, clean, hard finished legs. Several horsemen have said that he is the best looking son of Electioneer they have seen. This colt is superbly bred in both blood and speed lines. On both paternal and maternal sides he comes from the Hambletonian-Harry Clay combination, which has proved a great cross, as shown in such sires as Electioneer, Victor Von Bismarck, Hambletonian Prince, etc.; but his special claim on the attention of horsemen is that Addie, his dam, is a wonderful producer of extreme speed—she having produced Woodnut, 2:16½, Manon, 2:21 (trial in 2:15½), and Manette, trial 2:19¾. Electrotype is not only by one of the greatest sires that ever lived, but is out of one of the greatest mares. Such a bred colt can not fail to prove a decided success in the stud. He is a bold, open-gaited horse and has shown a forty gait with but very little practice. We do not believe that so grandly bred and individually superior son of Electioneer can be bought elsewhere.

Price, $15,000.

No. 3. PRINCE IMPERIAL. (Standard.)

(Trial 2:20.)

Bay stallion, foaled in 1869.

BY WILLIAM WELCH 341.

Sire of Jeremiah, 2:22¾, Violin, 2:29¼, and the dam of Persica, 2:28¾. William Welch is by Hambletonian 10; dam (the dam of Prince, 2:27).

1st dam Flora Temple, record 2:19¾ . . by One-eyed Kentucky Hunter.

2d dam Madam Temple . . . . . by Spotted Horse.

Dam of Flora Temple, 2:19¾, Pilot Temple, 2:24½, and Bland Temple (dam of Nora Temple, 2:27¼, and Temple, 2:30).

Note.—Prince Imperial is a very handsome, blocky stallion, rather small, but of great muscular development, large, flat, broad legs and excellent style. He is a pure, natural gaited trotter of great speed. Mr. Bonner drove him over his track in 2:23¾, and Johnny Murphy sent him a mile over Fleetwood in 2:20. He seems to be as fast as ever and is a charming roadster. Ladies have driven him. Prince is an old horse, but has more vigor, constitution and gameness than an average five-year-old. Promises to be useful for years to come. The blood of this horse should be preserved. Being by a son of Hambletonian 10, out of that great campaigner, Flora Temple, 2:19¾, he is a rarely bred one. Has been used as a road horse all his life, and only now and then covered a mare as a favor to owner's friends, nevertheless he has one in the 2:30 list. This horse would be a very desirable purchase to some gentleman having a few mares to breed, that could use him on the road most of the time. He would be a speculation to any one wishing to stand him and start in a few races. Has no record better than 2:40. Should earn his very low price twice over in one season.

No. 4. WOODFORD PILOT 640. (Standard.)

Brown stallion, foaled in 1873.

(Sire of Belford, 2:26¾, and King Midas, 2:28¼.)

BY WOODFORD MAMBRINO 345, record 2:21½.

Sire of Abbotsford, 2:19½, Pancoast, 2:21¾, and nine others in the 2:30 list. Woodford Mambrino is by Mambrino Chief 11; dam Woodbine (dam of Wedgewood, 2:19), by Woodford.

1st dam Bruna . . . . . by Pilot, Jr., 12.

Dam of Roma (dam of Farce, 2:29¼, Romance, 2:29½, and Fiction, dam of Fiction, 2:24¼).

Sire of the dams of Maud S., 2:08¾, Jay-Eye-See, 2:10, Nutwood, 2:18¾, and twenty-seven others in the 2:30 list.

2d dam . . . . . by Black Snake, a fast pacer.

Note.—Woodford Pilot is a seal brown horse 16 hands high, weighs about 1,100 pounds, a strong and well made horse, with good legs and grand action. He has a record of 2:31, made last October, and has repeatedly trotted trials in 2:27 and 2:28. He is the sire of Belford, 2:26¾, and King Midas, 2:28¼. His breeding is particularly good, sired by the best son of Mambrino Chief, and out of a daughter of Pilot, Jr., and she the dam of Roma, that produced two trotters in the 2:30 list. Should make him a valuable horse in the stud. Price, $2,000.

No. 5. OXONIAN 2012. (Standard.)

Bay stallion, foaled in 1881.

BY OXMOOR 1400, record 2:33.

Sire of Octavius, 2:26¼, and Cheltenham, 2:28. Oxmoor is by Princeps 536; dam Lindora, by Hambletonian 10.

1st dam Brunhilde . . . . . by Hambletonian.

Sister to Orange Girl, 2:20.

Sire of forty-one in the 2:30 list, sire also of the dams of Princeton, 2:19¾, Wilton, 2:19¼, and forty-nine others in 2:30 or better.

2d dam Dolly Mills . . . . . by American Star 14.

Dam of Orange Girl, 2:20, Walkill Chief (sire of Great Eastern, 2:18, etc.), Artemus (sire of Green Girl, 2:21¼), and Ajax (sire of Columbus Hambletonian, 2:26, and Gannymede, 2:29¼).

Sire of the dams of Guy, 2:12, Dexter, 2:17¼, Robert McGregor, 2:17½, Nettie, 2:18, Joe Bunker, 2:19¼, Driver, 2:19½, Orange Girl, 2:20, Fred Folger, 2:20¼, Jay Gould, 2:20½, Huntress, 2:20¾, and thirty-three others in the 2:30 list.

3d dam Jennie Lewis . . . . . by Roger's Young Messenger.

4th dam . . . . . by Dinwiddie.

Note.—Oxonian is a smooth well-shaped horse, a shade under 15½ hands high, has good length, ample bone and fine disposition. He is inclined to be double gaited, but when he squares away at a trot shows excellent action that, with proper training, should make him fast. He has had little opportunity for development. His breeding is superb and should make him a successful sire. His price is low. Price, $1,000.

No. 6. MANDARIN 1720. (Standard.)

Brown stallion, foaled in 1881.

BY ADMINISTRATOR 357, record 2:29½.

Sire of Catchfly, 2:18¼, McMahon, 2:21, Executor, 2:24¼, Adjutant, 2:27½, and three others in the 2:30 list. Administrator is by Hambletonian 10; dam Dolly Halstead by Mambrino Chief 11.

1st dam Lady Grace . . . . . by Hamlet 160 (son of Volunteer 55).
Dam of Graceful 2:23¼. — Sire of Loretta F., 2:18¾, A. V. Pantlind, 2:20¼, five others in the 2:30 list, sire also of the dams of Thornless, 2:18¼, Granby, 2:19½, Bluegrass Hambletonian, 2:20¾, and seven others in the 2:30 list.

2d dam Black Bess . . . . . by Stockbridge Chief (son of Black Hawk 5).
Dam of Gloster, 2:17. — Sire of Stockbridge Chief, Jr. (sire of Abe Edgington, 2:23¾, and Shepherd Girl, 2:29), and Rattler 501 (sire of Sophia Temple, 2:27, and the dam of Keene Jim, 2:19¾).

3d dam . . . . . by Mambrino Paymaster.
Dam of Mambrino Black Hawk (sire of Columbia Chief, 2:28¼). — Sire of Mambrino Chief 11 (sire of Lady Thorne, 2:18¼, etc.).

Note.—Mandarin is a good looking stallion, standing a shade over 16 hands high. He has great style, bone and substance with bold open action and can show better than a 2:40 gait. This horse is a sure foal getter and should make a record of 2:30 or better, if trained this year. His pedigree is a particular rich one, being by a horse with a record below 2:30 himself, sire of many fast ones, and royally bred; while his dam is by Hamlet (son of Volunteer), sire of the dams of two below 2:20 and eight others that have beaten 2:30. Mandarin's second dam was the dam of one of the best race horses, Gloster, 2:17, that ever started. His third dam produced Mambrino Black Hawk, a producer. Mandarin is a horse which should earn his price in the stud during the year 1889. Price, $1,500.

3d dam Lady Bacchus . . . . . by Cone's Bacchus.
Sire of Jennie Holton, 2:22¼, and of the grandam of Amy, 2:20¼, and Governor Sprague, 2:20½.

Note.—King Phallas is a horse of great beauty, size and style, combined with fine action, extra bone and high breeding. It will be difficult to find a stallion that will outshow him. He is by the greatest performing stallion, speed and campaigning qualities considered, that has appeared on the trotting turf, and his dam was a mare uniting beauty and speed with producing powers. The same may be said of his grandam. We regard King Phallas very promising for speed (can now show a 2:40 gait), and believe with training he will secure a low record. This horse, if located in any good horse country, should earn his price in one stud season. He is a prize and is priced very low.

Price, $2,000.

He is a strong, well made horse, with a good head and neck, a full, round middle, good back and quarters, and good legs. He has never been handled for speed, having never been on a track, but his action is good and he shows a big, open gait. He is a horse of good disposition and pleasant to handle in any capacity. His breeding is remarkably good, with a double cross of Mambrino Chief and through the best sources; his second dam a producer, and his third dam by Pilot, Jr., make his blood lines the very best. He has been in the stud and is a sure foal-getter. Price, $1,500.

He was sired by the great Dictator, sire of the fastest three horses ever gotten by one stallion. The dam of St. Paul is by a son of Hambletonian which sired Adelaide, 2:18, and other fast ones, and his second dam was a performer and producer. St. Paul has with little work shown a mile in 2:50. If trained will go fast and should prove a great stock horse.

He is strong and well formed throughout, has hard, clean, well-shaped legs, feet well set on and of the best quality. His disposition could in nowise be improved. He has had no regular training, but shows so good a gait as to give promise of becoming a fast horse with opportunity. His full sister, Autumn Queen, trotted a mile in 2:36½ last year. Prior to 1888 Sir Garnet served only eight mares, one of which has proved barren to several stallions. From the others he has five foals, all remarkably well gaited and handsome. Twenty-two sons of Volunteer have sired forty-nine trotters with records of 2:30 or better, and seventeen daughters produced seventeen trotters with records of 2:30 and better. Volunteer has but three entire sons out of dams by Harry Clay—Louis Napoleon, Volney and Sir Garnet. Among the latter is Sidney, 2:19¾, the phenomenal young California sire, and Sidney's third dam is by Harry Clay. Price, $2,500.

No. 14. PRINCE PATCHEN.

Brown colt, foaled in June, 1885.

2d dam . . . . . by Duroc.

Note.—Prince Patchen is an elegant young stallion of high style and quality, nearly 16 hands (will be fully that), with clean, cordy legs, and fine mane and tail. This stallion should get large, handsome coach and road-horses, with showy action and great style. He would make a superb park saddle-horse, if trained for that purpose. To any one having mares that are small that should be bred with the view to get produce of fine size and good appearance, this stallion would prove a prize. He should earn his small price in one season and is worth fully the figure asked for him as a roadster or park horse. Prince Patchen well-mated would make a pair of carriage horses worth $1,200 to $1,500. Price, $400.

We are confident that Bavarian will trot into the twenties this season, if trained. His dam produced Octavius, record 2:26¼, and furthermore, she is full sister to Siberian (Romulus), record 2:31¼, and trial 2:27. He is level-headed, game and speedy. I gave him a little track work only, yet he could show a 2:50 gait. His action is almost faultless." Note.—Marking is one of the best colts of his age on our farm and bids fair to make a very fast trotter. He is a very dark, almost black, chestnut, and will at maturity be 16 hands high. His head is fine, neck lengthy, well set on to the deepest and strongest shoulders we have ever seen on a colt of his age. Back, loins, hips and thighs, particularly strong and well shaped for speed. Legs broad, flat and cordy. The sire of Marking is one of the very best bred trotting stallions living (see last pages of this catalogue), and has a record below 2:20. The sire of the dam of Marking is by Belmont, a wonderful producer in the first, second and third generations, and he (Glenview) was out of the dam of Favonia, record 2:15 in a fourth heat. The second dam of this colt was by Cuyler, sire of the dam of Patron, 2:14¼, etc., etc. Marking's blood lines run to Alexander's Abdallah three times, with other crosses to Hambletonian, Mambrino Chief, American Star, Alexander's Norman, etc. He is highly bred for stock purposes. 4th dam . . . . . by Harden's Kentucky Hunter.
Dam of Daisy Burns, 2:29¾.

Note.—Martyr is a large, growthy, powerful colt, with an excellent set of broad, clean, cordy legs. He will develop into a handsome, 16-hand horse. This colt is a trotter now, and is sure to become a race horse if no accident befalls him. His excellent breeding should make him a superior stock horse. His sire, Rumor, 2:24¾, is a very highly-finished, elegant stallion, and is faster than his record; all his colts that we have seen show promise, and indicate that they will make a name for their sire. The dam of Martyr is by General Knox, a trotter and a sire of trotters from the first to the fourth generation. For the benefit of those who are not entirely familiar with the merit of General Knox and his descendants, we will state a few facts concerning them: General Knox had a record of 2:31½, and when sixteen years old trotted two mile heats in 2:24 and 2:25½. He is the sire of fourteen in the 2:30 list—of these three beat 2:20—is also the sire of twenty with records ranging from 2:30 to 2:35, and twenty-one with records between 2:35 and 2:40. His daughters have produced eleven trottters in the list, and eighteen of his sons have representatives in the 2:30 table; also many of his grandsons and granddaughters. General Knox was sixteen years old before he had access to a good class of mares. The Knoxes are a great family of natural trotters, and their blood is an exceedingly valuable element in a pedigree. Martyr's grandam was by Socrates, 2:34¼, at four years old (son of Hambletonian 10, out of a Star mare), and his great-grandam was a performer as well as a producer. This colt is a very valuable one for a trotter or a stock horse. Price, $1,000.

His dam was by Strathmore, a sire of uniform and extreme speed, and his sire breeds as much elegance and action and is altogether one of the best bred horses in the country. The second dam of Chris produced a trotter with a record of 2:25½. He should make a trotter and a sire of trotters.

His royal breeding is a guarantee that he will prove a great stock horse and justifies the expectation that, if trained, he will trot fast. No. 56. WILROD. (Standard.)

Bay colt, foaled in July, 1888.

3d dam . . . . . by Japhet (thoroughbred).
Sire of the dam of Prince Edward, 2:24½.

Note.—Wilrod is a regular Wilkes in make-up and shows fine, open action in the lot. He is of moderate size (was foaled late), blocky, with strong shoulders, short back, well coupled, very powerful hips, thighs and arms. His general formation denotes speed. But little need be said of his sire, one of the fast and well bred sons of George Wilkes, standing at $200, and has a full book. Wilrod's dam is by a superbly bred horse and one that has publicly shown himself fast, although never driven to a record. His second dam is by a producing son of the great Woodford Mambrino, 2:21½, and his third by a thoroughbred that has sired the dam of a 2:24½ trotter. This is a cheap Wilkes colt, and, if bought and waited on a reasonable time, will earn much wealth for his owner.

Price, $500.

No. 57. HAYWOOD. (Standard.)

Note.—Bandana is an elegant colt. His color is the perfection of bay, with small star and left hind ankle white. He is smooth and handsome in his make up, will be 16 hands high, with the best quality of bone and the best of legs, and he has the action of a trotter. His dam has speed, and she is a mare of quality. This is precisely the line of blood that produced Feme Sole, 2:20, Editor, 2:25½, and Invincible, 2:23, they being by Princeps out of a mare by Messenger Duroc, and 2d dam by a son of Hambletonian. Price, $800.

Note.—Louise, bay mare, with star and white hind ankles. This is a compact, powerful animal, smooth, handsome, and substantial, standing 15 hands high, being a big mare on short legs. Louise produced a three-year-old that sold for $1,650 at auction, and has a yearling colt by Mambrino Dudley that is one of the most promising on our place. He is large, finely gaited and fast. She has been bred to Mambrino Dudley, 2:19¾, again and is believed to be with foal. Louise is bred to produce speed, being by the sire of Clingstone, 2:14, and other fast ones, and is out of a mare by a brother of Volunteer, second dam the producer of a 2:24 trotter. Price, $650.

No. 66. NICKNACK. (Standard.)

(Full Sister to Stephen G., 2:20½.)

Bay mare, foaled in 1876.

BY KNICKERBOCKER 200.

Sire of Onward, 2:20¼, Stephen G., 2:20½, and five others in the 2:30 list. Knickerbocker is by Hambletonian 10; dam Lady Patchen, by George M. Patchen 30 (sire of the dams of Nettie Burlew, 2:24; Barbara Patchen, 2:24½, and four others in the 2:30 list).

1st dam Sunbeam . . . . . by Volunteer 55.
Dam of Stephen G., 2:20½.
Sire of twenty-eight in the 2:30 list, and of the dams of sixteen others in 2:30 or better.

2d dam Serenade . . . . . by Vermont Black Hawk 5.
Sire of four in the 2:30 list, and of the dams of Blanche, 2:23½, General Tweed, 2:26½, and Tennessee, 2:27.

Note.—Nicknack is a mare of extra quality, length and bone, stands 15½ hands high, and has capital action. She is highly-bred and a full sister of Stephen G., 2:20½, is a very sure breeder, and has some young produce of great promise. Was bred to Kentucky Wilkes, 2:21¼, on September 25th. This mare is offered at a bargain. If not in foal will be bred to Kentucky Wilkes this year free. Price, $900.

No. 67. ELIZA LONG.

Bay mare, foaled in 1876.

BY MAMBRINO PATCHEN 58.

Sire of sixteen in the 2:30 list; sire also of the dams of Guy Wilkes, 2:15¼, 'Astral, 2:18, Baron Wilkes, 2:18, Rosa Wilkes, 2:18¼, Elvira, 2:18½, and twenty others in 2:30 or better. Mambrino Patchen is by Mambrino Chief; dam Rhodes Mare (dam of Lady Thorne, 2:18¼), by Gano.

1st dam Eliza.
Dam of Molly Long, 2:33¼, as a four-year-old.

Note.—Eliza Long is a large, powerful mare, with heavy bone, deep, oblique shoulders, and extra length. This is a splendid, roomy brood mare, standing about half an inch under 16 hands. She is the dam of Tristram, a large and handsome colt that showed a half-mile in 1:18 as a three-year-old, and is likely to make a record of 2:30, or better, this year. Eliza Long has a very promising filly by Kentucky Wilkes and is now heavy in foal to Earl, 2:24¾, son of Princeps, out of Juno by Hambletonian 10. The get of Earl are rapidly coming to the front—three of his two-year-olds showed miles in public ranging from 2:41 to 2:51 last season—and are bringing large prices. Eliza Long's produce by him should sell for more than the price of the mare. It would be an excellent investment to buy this mare and breed her to Kentucky Wilkes. Such a union would secure the coveted Wilkes-Mambrino Patchen combination. We do not think $600 could be better invested in a mare and stallion service-fee. Price, $500.

No. 68. BELLE ALMONT. (Standard.)

Chestnut mare, foaled in 1879.

BY ABDALLAH MAMBRINO 3715.

Sire of Geneva S., 2:19¼, Betty Jones, 2:22½, and the dam of Wawona, 2:28½. Abdallah Mambrino is by Almont 33; dam Lyd (dam of Lady Majolica, 2:25), by Brown Chief 4445.

1st dam Queen . . . . . by Clark Chief 89.

Dam of H. B. Banning, trial 2:26¼.

Sire of Croxie, 2:19¼, and five others in the 2:30 list; sire also of the dams of Phallas, 2:13¾, Majolica, 2:15, Wilson, 2:16¼, and eight others in 2:30 or better.

2d dam Lute Boyd . . . . . by Joe Downing 710.

Dam of The Banker, 2:29½, and Harrison Chief, one of the greatest show horses in the State—a trotter and producer of trotters.

Sire of Abe Downing, 2:20¾, Dick Jamison, 2:26, and the dams of Lorene, 2:15½, Rarely, 2:24½, The Jewess, 2:26, Harrison, 2:26¼, and Kentucky Hambletonian, 2:27.

Note.—Belle Almont is one of the grandest-looking brood-mares on the farm. This mare stands 16 hands high, is stylish and highly finished, with great substance and bone. She has never been broken to harness, but shows superior action in the field. Her breeding is very choice, being by that choicely-bred son of Almont, Abdallah Mambrino, sire of Geneva S., 2:19¼, and other good ones. Belle Almont's dam was by Clark Chief (a great sire of brood mares as well as trotters), and is the dam of H. B. Banning with a perfectly authentic trial of 2:26¼, and a premium winner at St. Louis and other fairs. The second dam of this mare produced The Banker, 2:29½, and Harrison Chief, a horse that has shown great speed and taken more premiums, probably, than any other horse in Kentucky. Belle Almont produced a large, handsome colt in 1888, which showed exceptional speed for his age and sold for $500. She is now heavy in foal to Princeton and her produce by him should be worth the sum asked for the mare. Price, $1,200.

Sire of the dams of Alameda Maid, 2:27½, Lady Snell, 2:23¼, and Nelly Webster, 2:28¾.

Note.—Lily is a large, strong, plain mare of excellent shape for speed; fine action and broad, flat legs. This mare has a record of 2:41½, and has trotted trials in 2:25 and 2:26, but broke down, preventing her getting a record. Her dam has produced three, each by a different sire, with trials better than 2:30. Lily is in foal to Dandelion, a stylish and well-bred son of Masterlode, sire of Belle F., 2:15¼, Edward, 2:19, George V., 2:20, and a large number of others with records in the twenties. Note.—Lena is a 16 hand mare, of length, substance, extra bone, and good action. She is by an elegantly bred and producing son of Hambletonian 10, out of Lady Winfield, by Edward Everett (sire of thirteen in the list, and six producing daughters). The latter mare produced Duroc Maid, dam of Feme Sole, 2:20, Editor, 2:25½, and Invincible, 2:23. Lena is the dam of a two-year-old that can show a 2:50 gait. She is heavy in foal to Dandelion 2776, son of Masterlode 595, sire of Belle F., 2:15¼, Edward, 2:19, George V., 2:20, and many other fast ones. Price, $750.

Sire of the dams of Guy, 2:12, Dexter, 2:17¼, Robert McGregor, 2:17½, and forty others in 2:30 or better.

Note.—Starless is a shade under 16 hands, very strongly built, with heavy bone, good length and excellent action. She is a very gentle driver. The breeding of this mare is exceptionally desirable; her sire has produced seventeen in the 2:30 list, four of them in 2:22 or better, and sired, also, the dams of two that trotted in 2:20 and many others in 2:30 or better. Norlaine, with the fastest yearling record, 2:31¾, is out of a daughter of Messenger Duroc. The dam of Starless was by old Hambletonian, out of a very fast American Star mare, which also produced a fast one. A sister of Starless, Nanette, made a record of 2:33, and showed a trial of 2:27, both over a half-mile track. One of the best two-year-old colts on our place is out of Starless. BY MESSENGER DUROC 106.

2d dam Lady May . . . . . by Cooper.
Son of Raven (by Hill's Black Hawk 5).

Note.—Edith Duroc is 15¾ hands high, quite handsome and bloodlike in appearance, and quite a trotter—can show a 2:45 gait when in road condition. She is sound in every particular. Berkshire Maid, the dam of Edith Duroc, was bred by Col. George Russell, of Great Barrington, Mass. She was very fast as a four-year-old, but was injured and not afterward worked for speed. Edith Duroc's first foal is a filly, by Nutwood, and she is fast. Her next is a yearling, by Princeps, and he is a very promising colt. She is now in foal by Princeps and the produce should be valuable.

Price, $1,000.

4th dam . . . . . by Crusader, son of Kosciusko.

5th dam . . . . . by Hancock's Hamiltonian.

Note.—Lucy Walter is a large, rangy bay mare of great power and bone. Stands 16 hands; is very lengthy, and one of the boldest, strongest moving mares we have seen. Her record is no measure of her speed, for we, and others, timed her a mile over the Indian Hill three-quarter mile track, in 2:26, and she repeated in 2:25½. Lucy is superbly bred, being by a trotter and sire of trotters, of choice pedigree, and her first to fourth dams are all highly bred. She was bred late to Earl, 2:24¾ (see his pedigree, No. 1 of this catalogue), and is believed to be in foal. This mare can not well fail to produce a very fast and valuable colt by this horse. Price, $1,200.

3d dam . . . . . by Brown's Bellfounder.

Note.—Sunshine is a more than ordinarily handsome mare, of good length, substance and bone. She is well gaited, has a record over slow track of 2:49, and can trot much faster. She is naturally kind, but has been injudiciously handled. In the hands of a good horseman should develop great speed. She was sired by a full brother to Mambrino Dudley, 2:19¾, and is out of a mare by a producing horse of excellent blood. Bred, October 1st, to Pilot Mambrino 515. Price, $550.

Note.—Guerrilla is a good looking bay mare of much constitution and vigor. She stands 15½ hands high full, and has an iron set of legs. Has been driven but a few times. Produced a very fine filly in 1888. Bred to Sir Wilkes, he by young Jim (son of George Wilkes), sire of three with records faster than 2:21. Uncertain as to being in foal. Price $250.

Note.—Ember is a very handsome mare, 15¾ hands high, of good bone and substance. As a four-year-old she showed much speed, trotting in 2:35, and sold for $4,000 to a New York gentleman. She afterward trotted trial over Fleetwood in 2:35½, and pulled a road wagon a quarter in 34½ seconds. Showed slight lameness last fall when worked; may recover if rested, and if so will be able to take a fast record. A full sister to this mare trotted a half in 1:17 at two years old and sold for $2,500. She was bred but will be given a chance to make a record later. A full brother was very promising and sold at a good figure. Ember is worth more than her price as a brood mare. Has had one colt. Price, $1,250.

No. 86. OLYMPIA. (Standard.)

Note.—Olympia is a very finely-finished, handsome mare, standing 15½ hands high, with excellent bone and substance. She is perfectly gaited, being open, square and rapid. Was handled somewhat as a three-year-old and took a record of 2:46½ at that age. Has since been used mostly as a road and brood mare. Trotted a trial in 2:38½. Was never served by horse but once and produced a very fine filly that sold for $800. Olympia is by a fast and well-bred sire that, although he died early, has produced several with fast records. The dam of this mare is full sister to a horse with record of 2:31¼ (trial 2:27) and is also full sister to the dam of Octavius, 2:26¼. A half brother of Olympia was sold for $1,500 when a young colt, and is now valued at several thousand, being very promising as a trotter. Olympia was bred to Mambrino Dudley, 2:19¾, in June, and is with foal. She is offered at a very low price for so choicely bred, handsome, and fast a mare, on account of being puffed in one hock. Does not injure her for the road or as a brood mare.

Price, $600.

Dam of American Queen, 2:37. Sire of Cozette, 2:19, and John H., 2:20.

Note.—Lottie is a very compact and stout mare, with excellent legs and feet, and is a great roadster. Has trotted trials better than 2:40, and can also pace fast. She is very gentle and stands a shade under 15½ hands. She is an inbred representative of that great branch of the Morgan family, the Lamberts. She is heavy in foal to Princeton, 2:19¾, and should produce a very valuable foal. Price, $700.

Note.—Meteor is a handsome, stylish mare, about 15¾ hands high, with good substance and bone. She is a strong mover and extra well gaited. Has been driven on the road and is a splendid driver, being prompt, game and kind. Was taken to a track last summer and showed a mile to road cart in 2:46½, repeating in 2:45. If trained would doubtless go fast. Any one wanting a first-class road-mare with the view of breeding her later would be suited with Meteor. Her sire represents the blood of the two great families, Hambletonian and Mambrino, and her dam was a daughter of the celebrated Flora Temple, the first horse to beat 2:20. Price, $700.

Last fall she was handled about three weeks, the first track work she ever had, and could trot in 2:40 and gave promise of making a fast mare. Her gait is very perfect and her disposition amiable. Her sire was by Hambletonian, out of Lady Fallis (that produced the dam of Clingstone, 2:14, and other trotters, and the sire of trotters), by American Star, the sire of the dams of so many trotters of extreme speed and game qualities. Her second and third dams were by the most popular sires of the day. Price, $1,200.

Masterlode is a son of Hambletonian 10 (sire of forty-one in the 2:30 list, and of 105 sons with 568 in 2:30 or better), dam Lady Irwin, by Seely's American Star 14 (sire of the dams of Guy, 2:12, Dexter, 2:17¼, Robert McGregor, 2:17½, Nettie, 2:18, and forty others in the 2:30 list).

1st dam . . . . . by Pierce horse.
The dam of Princess, 2:29½.

Note.—Chromo is a very powerful mare 16 hands high, with broad, flat legs and capital action. She was sired by a choicely bred Hambletonian-Star horse that has proved himself a great sire. Chromo is full sister to a mare that has beaten 2:30 and has herself shown a mile trial in 2:35. She had a large, fine colt last year, and is now in foal to Dandelion 2776. 1st dam . . . . . by Hambletonian 10.
Sire of forty-one in the 2:30 list; sire also of Trinket, 2:14, Stamboul, 2:14¾, and forty-nine others in 2:30 or better.

2d dam . . . . . by L. I. Black Hawk 24.

Note.—Jessie Walter is an exceedingly fine looking mare, 16 hands high. No experienced horseman can help being impressed with the shape of this mare as indicating great speed. She is an ideal type for a trotter and strong at every point. Unfortunately she has gone blind, the result of an attack of pink-eye. Before losing her sight showed a quarter in thirty-four seconds, and promised to make a high class race mare. Jessie is owned by a responsible party who authorizes us to state that he will give $500 for her foal by Electrotype (see No. 2 of stallions), to whom she has been bred, when same is weaned. Price, $800.

Son of Downing's Bay Messenger; dam by Randolph's Medley, son of Potomac.

Note.—Fanchon is a very superior road mare; a game, cheerful driver capable of showing a 2:50 gait. She is highly bred, being by a son of old Hambletonian and out of a mare by Mambrino Patchen. The Mambrino Patchen mares are as fashionable as any brood mares in the country, and deservedly so, for they have produced a remarkable number of our fastest trotters. Fanchon was bred to Pilot Mambrino, the best bred son of Pilot, Jr., and is believed to be with foal. Owing to a blemish, which does not affect her as a road or brood mare, Fanchon will be sold at a low figure.

Price, $350.

Note.—Preamble is a highly-finished, speedy-shaped mare, with fine head, neck, good back, powerful quarters and clean, hard, flat legs. She has fine action, is broken and kind, but has never been trained. She is 15½ hands. Her breeding is simply royal, first dam by that great sire of trotters and dams of trotters, Messenger Duroc, out of Hyacinth, the dam of Reina Victoria (which produced Princeton, 2:19¾, Euclid, 2:28½, and a yearling that brought $5,700 at auction), third dam Clara, the dam of Dexter, 2:17¼, and two others in the list, also dam of Dictator, and fourth dam a producer of a 2:27¾ trotter. Preamble would adorn any catalogue and can not fail to produce colts of merit that will command long prices. She is in foal to Electrotype, a son of Electioneer, out of a dam that has produced three that could beat 2:20. (See Electrotype, No. 2 of stallions.)

Note.—Iola stands 15½ hands high, fine, long neck, and is a well made mare of fine appearance. Her action is first-class, and if trained she should go fast. Has barely been broken to harness. The sire of Iola came of that grand cross—Princeps bred on Hambletonian mares—which has produced such performers as Trinket, 2:14, Princeton, 2:19¼, Greenlander, 2:24¼, Earl, 2:24¾, and other fast ones. Iola's dam produced Johnny P., 2:31½, and was by Mambrino Pilot, which was not only a highly bred stallion, but also a performer and producer. Back of this are valuable thoroughbred strains. The produce of this young mare by Mambrino Dudley, 2:19¾, to whom she is believed to be in foal, ought at an early age be worth her cost. Price, $650.

She has been broken to harness, and her driver stated could show a 2:45 gait, as a three-year-old. Her breeding is superb—she is by Alcantara, record 2:23 as a four-year-old, he by George Wilkes, 2:22, out of Alma Mater, dam of three in the 2:30 list, by Mambrino Patchen 58. Elizabeth's dam was by Peacemaker, a son of Hambletonian, and Sally Feagles. 4th dam . . . . . by Budd's Expedition.

Note.—Indies, brown mare of much symmetry and finish, combined with muscular development and excellent action. Is a powerful mare on short legs, stands about 15 hands high, and is likely to outbreed herself in size. Her sire is by Belmont, and out of Indiana (dam of Indianapolis, 2:21, and Pilot Mambrino, 2:35, trial when sixteen years old in 2:26¼), by Mambrino Chief. The dam of Indies was a very fast and game mare, record 2:24¾, by Chosroes, sire of the dam of Clingstone, 2:14, and her second and third dams are well bred. Indies has been broken to harness, driven only a few times. She should be a capital road mare, handsome and game. Her price is low.

Price, $400.

No. 106. JENNIE.

Bay mare, foaled in 1884.

BY YOUNG JIM 2009.

Sire of Garnet, 2:19; Butterfly, 2:19¾, and Molly Wilkes, 2:20½. Young Jim is by George Wilkes, 2:22; dam Lear Mare (dam of Jim Irving, 2:23), by Lear's Sir William.

1st dam Waltonia.

Note.—Jennie is one of the best individuals on the farm. She is very handsome; blood bay, 16 hands high, very smooth and highly finished, with elegant head and neck, deep, oblique shoulders, strong, short back, and the best of legs. Her sire, Young Jim, is a grand-looking son of George Wilkes, and has shown great speed, but, owing to an injury, did not get a record. He sired three with records better than 2:21. If highly bred on the dam's side, Jennie would bring three times what is asked for her. She is heavy in foal to Princeton, 2:19¾ and, if a filly, her produce by him will be worth more than the figure asked for her.

Price, $500.

No. 107. MYSTERIOUS. (Standard.)

Bay mare, foaled in 1884.

BY GENERAL WASHINGTON 1161.

3d dam . . . . . by Harden's Kentucky Hunter.
Dam of Daisy Burns, 2:29¾.

Note.—Mysterious is a grand-looking mare, 16 hands high, of very speedy form, great substance and bone, without being at all coarse. She is good in every feature and has excellent action. Has been broken to harness but never handled for speed. Her sire, General Washington, is by a great producer, and out of one of the fastest and gamest mares that ever started in a race. General Washington is fast himself (has shown 2:24 gait), and is now in the hands of the leading trainer of Kentucky for the purpose of making a low record this season. He has produced fast ones, and there is every reason to believe will largely increase his list in 1889. Socrates, the sire of Mysterious' dam, was one of the fastest four-year-olds out, at the time he acquired his record, and sold for $20,000 on account of his speed and elegant breeding. The second dam of Mysterious not only beat 2:30 but produced a son that is in the list, and he is producing speed. Mysterious is clearly in foal to Princeton, 2:19¾, one of the very best-bred horses living. Her produce by this great stallion should, when a year old, bring more than is asked for her. Price, $1,100.

3d dam . . . . . by Abdallah 1.
Sire of the dams of Goldsmith Maid, 2:14, and six others in the 2:30 list.

Note.—Seamstress is a filly of decided individual merit, having fine size (will be 15¾ hands high, or over), finish and muscular development. She has been led a few times at the side of a horse and has most promising action. This mare will certainly go fast when trained. Her full brother, Saranac, has a three-year-old record of 2:38. Study her pedigree; it is one of the choicest in the stud book. By a producing sire out of a producing dam, the latter by a great sire and race-horse, while back of these is the blood of Mambrino Chief, American Star, Ethan Allen, Abdallah, etc. Seamstress is surely in foal to Princeton, 2:19¾. The result of this union will be one of the best bred colts on earth. Any one looking for a bargain need seek no further. Price, $1,100.

She bids fair to be close to, if not, 15¾ hands high, has a clean cut, gamey head, fine neck, good back and ample bone. Has not been bred. Price, $600.

Her sire is elegantly bred and has a record of 2:19¾. Her dam comes of producing blood and is the dam of Alroy, 2:23. Artistic should prove a great brood mare. She is a most excellent individual, with the exception of a slight curb. Is offered low on this account. Price, $500.

Bay filly, foaled May 29, 1886.

BY KENTUCKY WILKES 1854, record 2:21¼.

Sire of Virginia Evans, three-year-old record 2:31, and Astoria, two-year-old record 2:40¾. Kentucky Wilkes is a son of the great George Wilkes, 2.22. For full pedigree, see page —

2d dam Kipp Mare . . . . . by Lefevre's Star.
Dam of Frank Wood, 2:24. — Son of Seely's American Star 14 (sire of the dams of Guy, 2:12, Dexter, 2:17¼, and forty-one others in the 2:30 list).

Note.—Avoca is a very stylish and highly-finished filly, shaped for speed and extra well gaited. She will be close to, if not fully, 15½ hands high, has a capital set of legs and is evidently game and enduring. She comes honestly by her style, finish and resolution, being by a sire noted for these qualities, and out of a daughter of Volunteer, probably the finest of all Hambletonian's sons, and the founder of a family that are unsurpassed as game campaigners. Avoca's dam is a full sister to Frank Wood, 2:24. She has a slight lump on her cheek, the result of a faulty tooth. Does not affect her in the least and can be removed. Here is a chance to get a Wilkes filly that will make a choice brood-mare, and probably a fast trotter, for a very moderate figure. Price, $700.

No. 140. AFRICA. (Standard.)

Sire of the dams of Guy, 2:12, Dexter, 2:17¼, Robert McGregor, 2:17½, and forty others in the 2:30 list.

Note.—Africa is one of the most elegant fillies on this or any other farm. She will be 15½ hands high at least, when matured—probably 15¾—and has extra style, quality and finish, united with good bone, fine length and the conformation of a trotter. Her action is superb; is just nicely broken, and has shown a three-minute gait. She will satisfy any experienced horseman that she will go fast if trained. Her blood lines, as well as speed lines, are exceptionally choice, combining as she does the blood of the greatest branch of the Mambrino Chief tree with that of the unrivaled representative of the Hambletonian-Clay family, Electioneer. With these for top crosses and the Hambletonian-Star cross as a foundation, she is very choicely bred. This filly promises to make a race mare, and is also suited for the road or harem. She is a prize. Price, $1,500.

Her sire, Currency, is very highly bred and comes from speed-producing families, while her dam is by an excellent son of Clark Chief, sire of Kentucky Prince, so widely known as the sire of Guy, 2:12, and a host of other fast ones. Bonnie C. should make a fine road or track mare and also prove an excellent breeder. Price, $400.

4th dam to 10th dams thoroughbred.

Note.—Circe is a very elegant filly of high finish, good muscular development and capital action. She will be about 15½ hands high when matured. The breeding of this filly is superb. Onward, her sire, is one of the fast and best producing sons of George Wilkes, and his get trot early. Circe's dam is by Dictator, the sire of the fastest trio of trotters (Jay-Eye-See, 2:10, Phallas, 2:13¾, and Director, 2:17) ever produced by one stallion. The second dam of this filly is by Mambrino Chief, the founder of a great family. Back of this comes an excellent thoroughbred basis. Circe is a very game, high-spirited filly, of excellent temper and should make a fast trotter or a first-class brood-mare. We consider her a bargain. Price, $1,200.

Note.—Cheroot is a handsome filly, strictly fine in every feature and will be 15¾ hands high. As a two-year-old she was driven a little, and could show better than a three-minute gait. Grandly bred as she is, can not fail to make a trotter and a fine brood mare. Price, $1,500.

Note.—Creek is an exceedingly fine filly of good style, broad, flat legs and is smooth and handsome. She will probably reach 15½ hands at maturity, has good length and bold, open action. Has been broken to harness and can show speed. This filly will justify training and should make a fast trotter. The daughters of Cuyler have produced such young and fast trotters as Patron, 2:14¼, and Aquarius, 2:29½ (when three years old). Creek is an inbred Cuyler, based on the blood of Norman, Pilot, Jr., and thoroughbred. She should prove a producer of speed.

Catseye has big, true, far-reaching action and rapid. Just broken to harness and can show a three-minute gait. There is every reason to believe that this filly will be as fast or faster than her full sister, Opal, 2:23. We regard this filly as cheap at her price. Price, $1,500.

Note.—Helen H. is a handsome blood bay filly of the very highest finish, good length and clean, hard, flat legs. She will be about 15½ hands high and is fine in every feature. Her action is the poetry of motion, and she is very game and level-headed. That she will beat 2:30 this year, if handled, is as certain as anything not actually accomplished. As was remarked by a very experienced and conservative breeder, "She is a marvelous filly." Price, $2,000.

No. 148. HEGIRA. (Standard.)

Brown filly, foaled April 29, 1886.

Sire of Highland Maid, 2:27. Saltram is a son of Webber's Kentucky Whip; dam by Seagull, pacer.

Note.—Hegira is a rich brown filly that will be 15¾ hands high, or over. She is handsome and highly finished, yet very substantial, with clean, broad, flat legs, and excellent feet. Her action is reaching, low and rapid, and if she does not go fast will be the first one of that sort her dam has produced. Both the dam and grandam of Hegira are producers, and through her sire, Stranger, she secures the blood of two great mares (Goldsmith Maid, 2:14, and Lady Thorne, 2:18¼). That far-sighted breeder, Mr. John B. McFerran, of Glenview farm, purchased a yearling by Stranger for $2,500, which at the closing out sale brought $3,000. He shows great promise and can not be bought for twice the sum then paid for him. Hegira would grace any stock farm on which she may be placed, and her produce to Princeton, 2:19¾, to which she is certainly in foal, will have few equals in richness of lineage. Price, $1,200.

She can show close to a three-minute gait and will certainly be fast. Her sire trotted in 2:24¾, and her dam, with little handling, in 2:32 over a half-mile track. Early Bird is level-headed, steady and very game. Well broken. Price, $1,000.

Note.—Lady Princeps is a filly of fine size; will be close to 16 hands; grand shape for a trotter and good action. She can show fast already, and has only been fairly broken. Her breeding is capital and warrants the expectation that she will prove a fine brood mare, and, if trained, a trotter. She is cheap. Price, $750.

Sire of the dams of forty-three performers in 2:30 or better, including such cracks as Robert McGregor, 2:17½, Nettie, 2:18, Joe Bunker, 2:19¼, Driver, 2:19½, Orange Girl, 2:20, Guy, 2:12.

4th dam the McKINSTRY MARE.

Dam of Shark, 2:27½.

Princeton's Breeding is so superlatively rich, teeming as it does with producing and performing ancestors, that comment is scarcely necessary, further than to mention the fact that the shrewdest horsemen in the land were eager bidders on his dam, Reina Victoria, at the Glenview sale, forcing her price up to $7,025, being nearly twice as much as the best of the other grand matrons of Glenview sold for. Since that time she has been sold under the hammer for $7,200, and her yearling colt for $5,700.

Hyacinth, his second dam, is by that great sire of game trotters, and dams of trotters, Volunteer, and she has produced the colt, Mecca, that, as a four-year-old, trotted over a half-mile track last season in 2:33 (last quarter in 35 seconds). This colt can beat 2:30, and is likely to get a fast record this year.

The third dam of Princeton, Clara, was one of the greatest producers ever known, as she was the dam of Dexter, the fastest and gamest of his day, Alma and Astoria (both performers in the twenties), and the great Dictator, sire of the fastest three horses ever placed to the credit of one stallion.

Princeton, on his sire's side, comes from that fast, game and producing branch of the Mambrino Chief family represented by Woodford Mambrino, 2:21½. The latter great race horse and sire has many stars in his crown, chief of which are Princeps, Pancoast, 2:21¾ (sire of Patron, 2:14½, Aquarius, 2:29½, at three years old), and Mambrino Dudley, 2:19¾ (sire of Crescendo, a colt that can trot close to 2:20).

Princeton as a Race Horse has made a brilliant showing. In his four-year-old form he did stud duty up to the middle of August, when he was taken up and put in training; his race at St. Louis in October was, on this account, a most remarkable performance. Representatives of two prominent Turf Journals thus refer to the race. The Chicago *Horseman* said: "The contest was for the Mississippi Stakes, for four-year-old colts and fillies, $75.00 entrance, with $750 added. The starters besides Princeton were Reference, by Referee; Issaquena, by Pancoast; Gambetta, by George Wilkes, and Alicia, by George Wilkes. Princeton won in straight heats; time 2:26¾, 2:25 and 2:23¼. He was not pushed out in either heat, winning the first by an open length, the second by three lengths and in the third, to quote the report of the *Globe-Democrat*, 'Princeton slowed up at the finish and won by an open length. In this heat he trotted the middle half in 1:07½, the third quarter in 33¼ seconds. Princeton can, without a doubt, trot a mile in 2:20.' The *Horseman* is always glad to note the meritorious performances of the youngsters, and in this case finds abundant cause for congratulation to the fortunate owner of Princeton, Mr. Buford, also to the owner of his sire, Princeps, Mr. Veech, of Louisville, Ky."

The Kentucky *Stock Farm* said of Princeton: "Taking into consideration his breeding on his dam's side with the blood of his sire, Princeps (sire of Trinket, 2:14), by Woodford Mambrino, 2:21½, out of a mare by Alexander's Abdallah (sire of Goldsmith Maid, 2:14), it may be said that Princeton is one of the best trotting stallions in the world. His performances last season (1884)

proved him the very best four-year-old out, as he trotted a third heat in 2:23¾ at St. Louis, winning his race in three straight heats with great ease."

In 1887, Princeton covered sixty-one mares, keeping busy in the stud, up to July 27th, after which time he was jogged on the road and track, not being allowed to go faster than a forty gait in any of the short spurts permitted him. Early in August he was shipped to Terre Haute, and worked over that track four days. having one repeat in that time. He was then entered for a free-for-all race, his owner, Mr. Buford, believing that Princeton would not have to trot faster than about 2:30 to win, and that it would merely be easy work for him. In the first heat, Jack Hayden forced Princeton out in 2:24. Mr. Buford, by this time, realized he had a horse race on his hands, and greatly regretted having entered Princeton in his soft condition, but having gone this far, determined to win if possible. Princeton's driver was instructed to lay him up in the second heat, which he did; the third heat was won by Princeton in 2:25½. In the fourth heat Princeton's competitor forced him to go to the three-quarter pole in 1:45 (a 2:20 gait), and then gave it up, allowing Princeton to jog in at his ease in 2:24.

In our opinion, taking the circumstances into consideration, this was as great a race as Princeton ever won and proved him a game race horse. In October, as a six-year-old, Princeton won the stallion race at Lexington, in straight heats, the last being the fastest, time 2:19¾. One of the most experienced and astute horsemen in the country has written Princeton's owner, that he knows of no young horse more likely to reach the stallion record.

Princeton's Personal Features, Colts, etc. The individual merit of this stallion, in form, finish and action, is fully up to and in keeping with his high breeding and superiority as a race horse. A happy combination seldom found to the same degree among the best stallions of the land. Princeton stands 15¾ hands high, is a rich seal brown in color, with star and some white on hind pasterns. He is a strictly fine horse, smoothly turned, of extra muscular development, showing great power and the look of a horse of strong constitution, which he is known to possess. His action is rapid, with good length of stride, and his disposition level headed. He has an excellent set of legs, flat, clean and hard in finish. Weight, over 1,100 pounds.

As an indication of Princeton's individual merit and that of his produce, we mention that he captured the Herd Premium for best stallion and four of his get at the Lexington, Ky., Fair, last fall. But one of Princeton's get had reached the age of three years in 1888. This is the filly, Princeppa, that showed a quarter in 36 seconds, and was not regularly trained. Spray, a yearling (15¼ hands high), first had a bridle on her May 5th, and during the first week in September trotted a mile over the Lexington track in 2:58—last half in 1:26½. There are others coming on that are just as fast for their age and handling. Altogether we have seen sixteen of Princeton's get and find that their sire stamps himself on his produce to a remarkable degree. They are, without exception, elegantly finished, substantial, and speedy in conformation; are fine and blood-like in ears, head and neck, deep and oblique in the shoulders, short in the back, smooth and strong in the coupling, and very extra in the development of their quarters. They have ample bone of the best character. All save one, said to have been badly treated, are of fine size.

Princeton is a particularly sure foal getter, and we have reason to think that fifty-eight out of the sixty-eight mares he covered in 1888 are with foal.

DESCRIPTION OF KENTUCKY WILKES.

Kentucky Wilkes is a stallion of rare beauty, symmetry and finish, combined with powerful muscular development and extra good bone. He is a rich seal brown, with tan muzzle and flanks; stands 15¼ hands high, and, in usual flesh, weighs about 1,025 pounds. He has all the quality of an Arab, with the conformation of the highest type of the modern trotter. His head is small and fine, but broad between the eyes, which are very prominent, strong, clear and hazel in color. Ears medium size, erect, well pointed and lively. Neck clean cut in throttle, beautifully arched and well set on very oblique and deep shoulders, which run well back into a back that can not be excelled. Through the loins he is exceptionally deep, with smooth hips and very muscular quarters and thighs. His barrel is well rounded and arched out, and is closely ribbed back. Legs broad, flat, clean and cordy, with the best of hocks; feet perfect in shape and texture; mane and tail, extra fine, the latter beautifully carried. He is a horse of high courage, exceeding vitality, constitution and perfect temper. His action is bold, pure and frictionless, folding the knee well and open behind. Kentucky Wilkes comes up to the highest ideal of an elegant roadster, and has demonstrated his speed and gameness on many tracks throughout the East and West—winning a large number of hard fought races. His pedigree speaks for itself, showing that in addition to the wonderful prepotent combination of Hambletonian-Clay blood derived from his unrivaled sire, George Wilkes, he possesses for a dam one of the greatest brood mares, taking into consideration the reproducing power her progeny have shown. Not only has the dam of Kentucky Wilkes produced three that have shown their ability to beat 2:30, but three of her daughters are the dams or grandams of performers with records ranging from 2:18¾ to 2:30. Back of this is a thoroughbred mare, who is the grandam of one in the list and four thoroughbred crosses behind her.

THE PRODUCE OF KENTUCKY WILKES.

The oldest of this stallion's produce are three years of age (foals of 1885). Only one of the moderate number foaled that year has been regularly trained, so far as we can learn. This is the filly, Virginia Evans, which obtained a record of 2:31, and distanced her field in a stake race in 2:33, over a half-mile track. She also showed her ability to beat 2:30 in another race in which she lapped out a horse in three heats, each of which was below that mark. This filly is a race mare and likely to gain a record well down in the twenties in 1889.

Astoria, a two-year-old, obtained a record of 2:40½, trotting the last half in 1:18½. Another two-year-old shows fully as much speed. A yearling, by Kentucky Wilkes, with less than five weeks' leading, trotted a quarer in 45 seconds, showed a forty gait, and sold for $2,500 cash.

All of his produce are promising as trotters, and have the quality, finish and action of their sire. Most of them will exceed him in size.

Several of his get can be seen at our farm.

DANDY AND DIAMOND,

Pair of Chestnut Geldings.

This is a natty, stylish team, very closely matched, handsome and blocky, having extra length and broad, flat, hard, cordy legs of the best character. They are full brothers, seven and eight years old. Sired by a son of Daniel Lambert. Are regular Morgans, of the original type, with nice heads and ears; well arched neck, short, strong backs, deep, round barrels and stand scant 15 hands high, but weigh about 900 pounds each. Manes and tails full and handsome. This pair are great roadsters, can show a four-minute gait or better and can travel twelve miles in an hour. Are fast walkers and work up even together. This is a lovely team that will, we think, give their purchaser great satisfaction; a pair that will attract much attention anywhere and be a source of pride to their owner. They are gentle and kind in single and double harness, yet spirited and free drivers with nice mouths. Color, dark red chestnut with no white except spot on hind heel of one.

PILOT MAMBRINO 515.

Record 2:35. Public Trial 2:26¼.

BY PILOT, JR.

Sire of the dams of Maud S., 2:08¾, Jay-Eye-See, 2:10, Nutwood, 2:18¾, Pilot Boy, 2:20, Naiad Queen, 2:20¼, Noontide, 2:20½, Mambrino Gift, 2:20, Viking, 2:19¼, and twenty-two others with records of 2:30 or better. Pilot, Jr., also sired eight sons with records ranging from 2:24 to 2:30.

1st dam INDIANA . . . . . by MAMBRINO CHIEF 11.

Dam of Indianapolis, 2:21.

Sire of Lady Thorne, 2:18¼, and Woodford Mambrino, 2:21½. (Sire of Princeps, Mambrino Dudley, 2:19¾, and Pancoast, 2:21¾, sire of Patron, 2:14¼.) Mambrino Chief also sired twenty-two sons that have produced trotters in 2:30 and under, and the dams of twenty horses with records from 2:17 to 2:30.

2d dam s. t. b. . . . . by BERTRAND.

Pilot Mambrino is the best bred son of the great Pilot, Jr., sire of the dams of the fastest two trotters that ever lived. Unlike many of the sons of Pilot, Jr., he has a very even, kind temper, and is particularly steady and level headed. He is one of the truest gaited and highest couraged horses ever seen. We have secured this stallion believing he offers the best source from which to obtain the wonderful producing Pilot blood. Pilot Mambrino never had any opportunity as a sire until he was placed at Indian Hill. The following extract from a paragraph in the 1887 catalogue of Indian Hill Farm, referring to Pilot, Jr., blood, says:

"The exceeding value of this strain is universally admitted, and the bulk of it, found at Indian Hill, is derived from the best bred son of Pilot, Jr., namely Pilot Mambrino. His dam was the great brood mare Indiana, by Mambrino Chief. She produced Indianapolis, 2:21, and other good ones. Pilot Mambrino obtained a record of 2:35½ in the mud, winning at his ease in straight heats. He trotted a trial over the Louisville Jockey Club track, in the presence of several reliable parties, in 2:26¼. He is a horse of grand action, perfectly level head, unlimited gameness, and possesses the clean bone and excellent feet for which, with other important characteristics, the Pilot family are noted. His colts are natural trotters, have great substance, and the valuable features of their sire. They will make a reputation on the track and in the stud. When we consider how scarce the blood of Pilot, Jr., is, that he sired eight 2:30 horses and the dams of the fastest two that ever lived (Maud S., 2:08¾, and Jay-Eye-See, 2:10), as well as the dams of twenty-eight others with records in 2:30 and better (including Nutwood, 2:18¾, Mambrino Gift, 2:20, Noontide, 2:20½, Naiad Queen, 2:20¼, and Viking, 2:19¼), the value of this blood, particularly as an out-cross, can hardly be estimated, for it has proven a happy hit with almost every other line of blood."

Mr. Veech has said, in reference to five of the get of Pilot Mambrino, that he considered them equal to that number of the produce of any one stallion he had ever seen.

Pilot Mambrino's get are valuable and command good prices. A pair of his colts is one of the best road teams in Chicago, and $3,000 has been refused for them; the owner of a three-year-old has declined to entertain an offer of $2,500 for him; a three-year-old filly by Pilot was sold for $800 and resold to New York parties at an advance.

Pilot Mambrino is the sire of John Henry, record of 2:29¾ over a half mile track in 1887. This horse is claimed to be much faster. Boston Pilot, 2:32, is by this stallion.

Pilot Mambrino is a rich mahogany bay in color, is 15 hands 1½ inches high, has great substance and constitution, with the best legs and feet that could be desired. Although an old horse, he is exceedingly game, vigorous, and full of metal. He is *very* sure in the stud.

Pilot Mambrino stands at $50, with privilege of return. Limited to twenty-five mares. Stallion fees are due at time of service.

Mares not proving with foal can be returned next year (as indicated), provided stallions are living.
